

ON PREMISE PBX VOICE SOLUTIONS

Don't get locked down with proprietary equipment and expensive upgrades. Choose a VoIP phone solution that allows the flexibility to adapt and grow as your property's needs change.

CCI offers a flexible, on premise PBX VoIP solution that suits your needs at an affordable price point, leaving you with added flexibility to mix-and-match hardware and only pay for what you require.

The feature-rich solution, specifically for hotels, resorts, and other hospitality environments, including military and government housing units, was built from the ground up on an open hardware platform allowing the lodging industry streamlined support, maintenance, and maximization of capital investments - giving you complete control over every detail.

Cost Effective: Up Front & Down the Road

As technology changes, so does compatibility with your current equipment. Utilizing an open hardware platform allows the freedom to choose a host of 'best in class' products compatible with our on premise solution. For a hotel or property management firm, this translates into lower hardware prices, easier upgrades, better access to equipment, and protection against obsolescence and failure.

By embracing CCI's on premise PBX solution, upgrades are simple, allowing you to choose the best products for your needs today, and flexibility to adjust to future demands.

Enhance Guest Services

Keep your guests satisfied and your staff productive by utilizing key features included with the on premise PBX solution.

- Enhanced Housekeeping
- Wake-up call programming and management
- Fully-featured conference bridge
- Auto attendant

Experience Mobility & Efficiency

Improve staff efficiency by providing the option to be flexible with voice needs, wherever they are. CCI's on premise PBX solution allows multiple ways to utilize voice services, letting you have ultimate control and keeping in touch with what's important.

- Find-Me/ Follow-Me
- Unified messaging
- Fax integration

The features help your staff remain efficient and continuing to provide guests top-notch service.

Reduce Costs

Lower total cost of ownership and stop settling for an expensive, low-feature voice solutions. Operating on an open standards platform means your costs and expenditures will be reduced in various ways including equipment and technology upgrades, simplified licensing, fewer interfaces, and lower maintenance fees. CCI's all-in-one solution allows you to spend less on voice services and more on guest satisfaction.

Safeguard Investments

Because of the open standards platform CCI's on premise PBX solution is created on, equipment obsolescence is no longer an issue – meaning you won't be required to replace your equipment when a manufacturer discontinues or upgrades a product.

Fail-Safe features are also embedded to ensure your network and guest satisfaction remain safe in the event of hardware failure or disaster. These features aid in creating limited quality interruptions and a seamless recovery and restoration of your system.

- Survivability
- Modular design
- Disaster recovery
