

Win with a smart combination of high-tech and high-touch

As partners with Cisco, CCI has full access to Cisco's sales, technical and lifecycle training and support services. That means you enjoy the latest high-tech network solutions, backed by our high-touch approach to helping you succeed.

Early access keeps you ahead

Take advantage of our in-depth knowledge of Cisco products for IP routing and switching services, optical transport and CMTS. CCI works directly with Cisco's product designers, offering feedback based on our field experience. Through CCI, you learn about features before they're released. We keep you ahead of the curve and the competition.

Field experience adds practical insight

We've installed and upgraded Cisco products for operators all over the country. When we recommend a product, we're not just looking at a spec sheet; we're drawing on all that valuable field experience. You can rely on CCI to know whether an installation will work with your current network.

Hands-on support streamlines projects

Cisco entrusts CCI, as a partner, to take primary responsibility for account management. We've earned this trust through our exclusive focus on service providers. You enjoy carrier-class solutions supported with outstanding customer service that keeps your project on schedule and within budget.

Proudly award winning

CCI is honored to have received the Cisco Partner Summit Architectural Excellence award for performance and expertise as a Cisco partner.

Single-source convenience makes your life easier

Buying Cisco equipment through CCI doesn't cost you anything extra, but you gain important extra benefits. We communicate closely with you at every step, monitoring ship dates, tracking and scheduling. You get the equipment you need to launch your project on time and increase revenue.

Co-sponsored seminars guide your business

CCI and Cisco frequently team up to offer technical and business-related webinars, seminars and conference presentations. You gain clear, useful information to improve your network and your bottom line.

Join in the partnership

Build on the benefits of CCI's partnership with Cisco. Make us part of your network team! Call CCI today: 855-337-9299.

Proudly certified

CCI is a Service Provider partner with Cisco-certified service provider professionals. From our account managers to engineers, we are Cisco certified to sell, design, implement and maintain the many needs of Service Providers. Our engineers hold the coveted SP-CCIE, CCNA and CCNP certifications.
